

Prep 2 - Piaget's stages of intellectual development

1. According to Piaget, what determines a child stage?
2. How many stages of cognitive development are there?
3. What are the 4 stages of development called?
4. How old are children in each stage?
5. Does the age at each stage vary from child to child?
6. Explain what a child can do, is developing, can't do for each stage.

Important - As part of task 6 you should have included and be able to define all of the following key terms:

- Object permanence
- Conservation
- Ego-centricism
- Class inclusion

Part 6 of this prep SHOULD take you some time if you do it properly!! I'd say at least 30 mins.
